

Whip Up Energy Savings with Rebates Designed for the Kitchen

Keep high utility costs out of the kitchen! Explore rebates from FirstEnergy's Pennsylvania utilities on energy-efficient food service equipment perfect for cafés, restaurants, and institutional kitchen operators. Not only do these energy-efficient appliances cut down on your energy costs, they also reduce water use and maintenance costs.

The same features that enable more efficient energy and water use contribute to an extended product lifetime, meaning your savings are likely to last that much longer.¹

To view all the rebates available from FirstEnergy's Pennsylvania utilities Commercial & Industrial Energy Efficiency Program, visit energysavePA-business.com.

FirstEnergy's Pennsylvania utilities offer a suite of programs to benefit all customer sizes and project types. To view all available Commercial and Industrial offerings please go to energysavePA-business.com.

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysavePA.com.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.
